Scanned committee minutes have been linked to bills in the [Legislative Archive System](#) (LAS) for the 63rd–77th Legislatures (1973–2001).

If we have committee minutes for a bill in that time period, there will be a "Committee information" tab in the bill's LAS record, and you can see links to committee minutes at the bottom of the History tab view.

Linking bills to scanned minutes from the 62nd Legislature and prior is underway. You also can [search minutes](#) by committee name, chamber, and session. More recent committee minutes can be accessed via the Committees tab on [Texas Legislature Online](#).
